

DeLaval and AgrAbility of Wisconsin Farmer Assistance Program

Tie stall milking units can be cumbersome to move around the barn, and over time, the repetitive movements from milking could lead to excessive wear on the joints and back. DeLaval offers solutions to make tie-stall milking more comfortable, efficient and sustainable. This is why DeLaval and AgrAbility of Wisconsin are proud to work together to bring you the best solutions for tie-stall milking.

Starting September 1, 2017, DeLaval is offering exclusive project discounts to AgrAbility of Wisconsin clients on DeLaval Milking Units with MultiCouplers and carrier rail systems.

DeLaval tie stall milking system benefits:

- Reduce the number of times you need to bend down to handle the clusters with automatic take-offs based on milk flow
- Reduce body strain when carrying milking units or supplies around the barn with carrier rail
- One point connection for milk, power and vacuum, no need to reach up multiple times to connect each
- Exclusive DouVac vacuum control for gentler, more complete milking

DeLaval Discount Details:

20% Discount on the purchase of any DeLaval Milking Units (MU BLUE, MU480, or MU486) with MultiCoupler, **AND** a carrier rail system.

15% Discount on the purchase of any DeLaval Milking Units (MU BLUE, MU480, or MU486) with MultiCoupler **OR** a carrier rail system.

To become an AgrAbility client eligible for the discount, please contact AgrAbility of Wisconsin at 608-262-9336 or agrability@wisc.edu. With program questions contact Pat Wiltzius, Solution Manager, DeLaval, at 847-478-6368.
